# Jet Analytics
from insightsoftware

Instant BI and Reporting Within Excel and Power BI

Jet Analytics delivers fast, flexible dashboards and reports in Excel, Power BI, and on the web. Now you can bring all of your data together in one place to enable everyone in the organization to easily perform sophisticated business analysis from anywhere, without technical expertise. Empower users to make better decisions, faster.

Turn data into **insight** immediately with Jet Analytics

Enable Self-Service Reporting and Analytics

Put business users in control of their reporting. Let them to work where they are most comfortable: in Excel or an interactive dashboard.

Accelerate Power BI Deployment

Reduce the time taken to access accurate and controlled data by 80%. Define business logic centrally rather than re-implementing in every dashboard.

Ensure Consistent and Accurate Analytics

Establish a system of record that includes historical data and multiple data sources, guaranteeing that everyone is using the same information to run their reports.

Reduce Total Cost of Ownership

User-friendly data preparation, automation, and modeling tools to support all your reporting and analytics needs.

Drive Reporting Performance

Build cohesion and improve team output with a complete data preparation, automation, and modeling tool, and a BI customization platform that is five times faster than manual coding.
