Leverage Your Jet Reports Investment

Helped more than 700 people to improve their everyday reporting

The best and the most experienced trainers from Global Data 365

16 hours of gaining knowledge

Training materials and practical tasks

Beginner Training

9 Hours

This training program has been tailored to cater to the needs of individuals who possess limited or no prior acquaintance with Jet Reports. The training sessions will be organized into three segments, each spanning three hours. With the help of a live instructor, you'll receive hands-on instruction and guidance, equipping you with the essential skills needed to create customized reports using Jet Reports.

Professional Training

16 Hours

This training program is designed to provide you with a thorough understanding of Jet Reports, covering both basic and advanced topics. With a total duration of 16 hours, spread across 4 days, this training program offers an immersive learning experience. A live instructor will guide you through hands-on exercises with personalized agenda, ensuring that you are equipped with the expertise to maximize the potential of this powerful reporting tool.

Comprehensive Training

20 Hours

This training program spans a total of 20 hours, structured over the course of five days. This comprehensive training program covers a wide range of topics, encompassing both fundamental concepts and advanced techniques. With a live instructor, you'll gain valuable insight and deep understanding of all tools and techniques. Through hands-on exercises and practical application, you will gain the necessary expertise to leverage Jet Reports to its fullest extent.
