

# The Fastest Way To Get Live Oracle Data Into Excel

Wands For Oracle Gives You A Live Excel Reporting Tool For Oracle EBS And Oracle Fusion Cloud. Build Financial And Operational Reports In Minutes, Refresh On Demand, And Drill Into Transaction-Level Detail Without Ever Leaving Excel.

Wands For Oracle

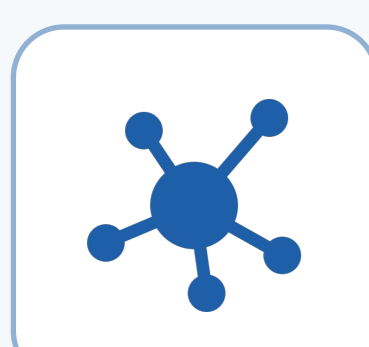

Oracle EBS Reporting

Oracle EBS & Fusion Cloud

Live Excel Connection

## Why Wands For Oracle

### Built For Oracle Reporting Teams Who Live In Excel

#### Live Oracle Connection

Connect Directly To Oracle EBS And Fusion Cloud — No Exports, No Static Files. Pull From GL, AP, AR, And All Oracle Modules Into Refreshable Excel Reports Your Team Can Rely On.

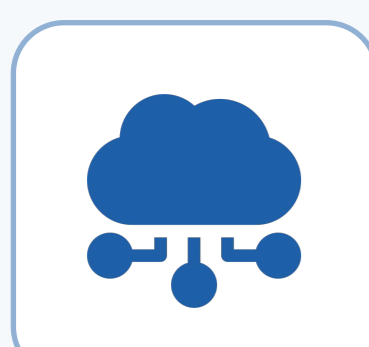

#### No More IT Tickets

Our Experts Set Up Wands So Your Finance Team Builds And Modifies Oracle Reports Themselves No SQL, No XML Templates, No Development Queue Standing Between You & Your Data.

#### One-Click Drill-Down

Click Any Number And Drill Straight Into The Oracle Transactions Behind It All The Way To Sub-Ledger Level. Spot Issues, Confirm Fixes, And Move On Without Switching Screens.

#### EBS To Fusion Cloud

Report Across Both Oracle Platforms During And After Your Migration. Compare Historical EBS Data With Current Fusion Cloud Data In The Same Excel Report No Dual Systems, No Extra Process.

#### AI That Works For You

Built-In AI Flags Anomalies And Variances In Your Oracle Data Before They Impact Your Month End Close, And Answers Report Building Questions Instantly No IT Tickets Required.

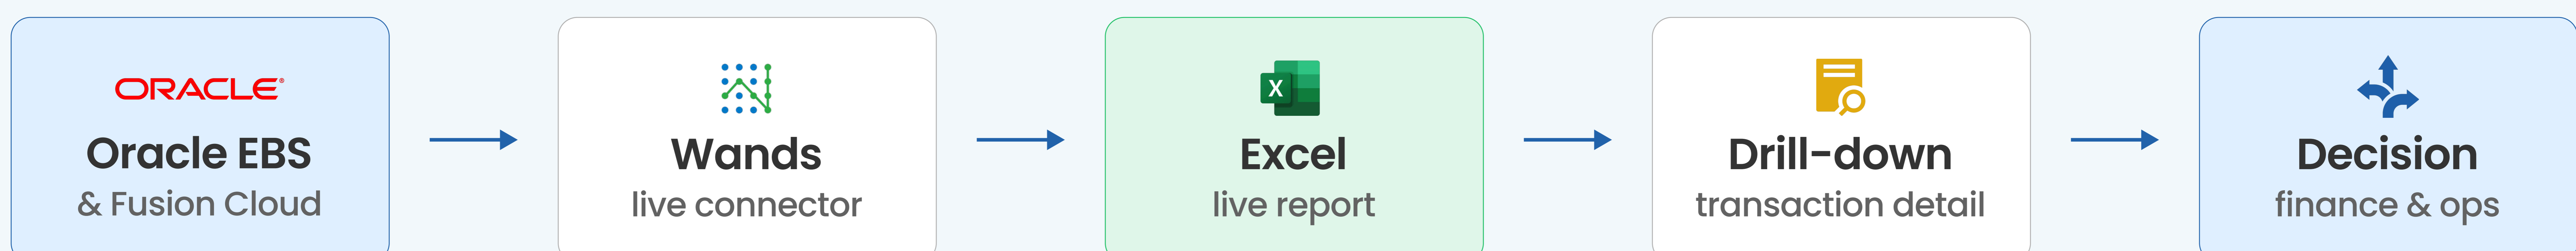

#### Post Journals From Excel

Load Journal Entries Straight From Excel Into Oracle. Validate Before You Upload, Automate Month-End Accruals, And Handle Bulk Corrections — All Without Leaving Excel.

## How It Works

### From Oracle To Excel To Decision

Direct Oracle Connection — No Extra Databases, No Middleware, No Custom SQL Or XML Templates Required

## Modules

### One Suite, Built To Grow With You

Start With GL Wand For Core Oracle Financial Reporting And Extend To Operational Reporting And Automated Distribution As Your Needs Expand. Each Wand Works Independently Or Together Inside Excel.

#### Financial Reporting

##### GL Wand — Oracle Financial Reporting In Excel

Build P&Ls, Balance Sheets, And Trial Balances From Live Oracle GL Data With Drill-Down To Sub-Ledger Level. Supports Full Chart Of Accounts Hierarchies, FlexFields, And Both Oracle EBS And Fusion Cloud.

#### Operational Reporting

##### Reports Wand — Oracle Data Beyond Finance

Report On AP, AR, Inventory, Purchasing, And All Oracle EBS Modules From Excel. Pull From Multiple Oracle Modules Into One Refreshable Report — No SQL, No IT Tickets, No XML Templates Required.

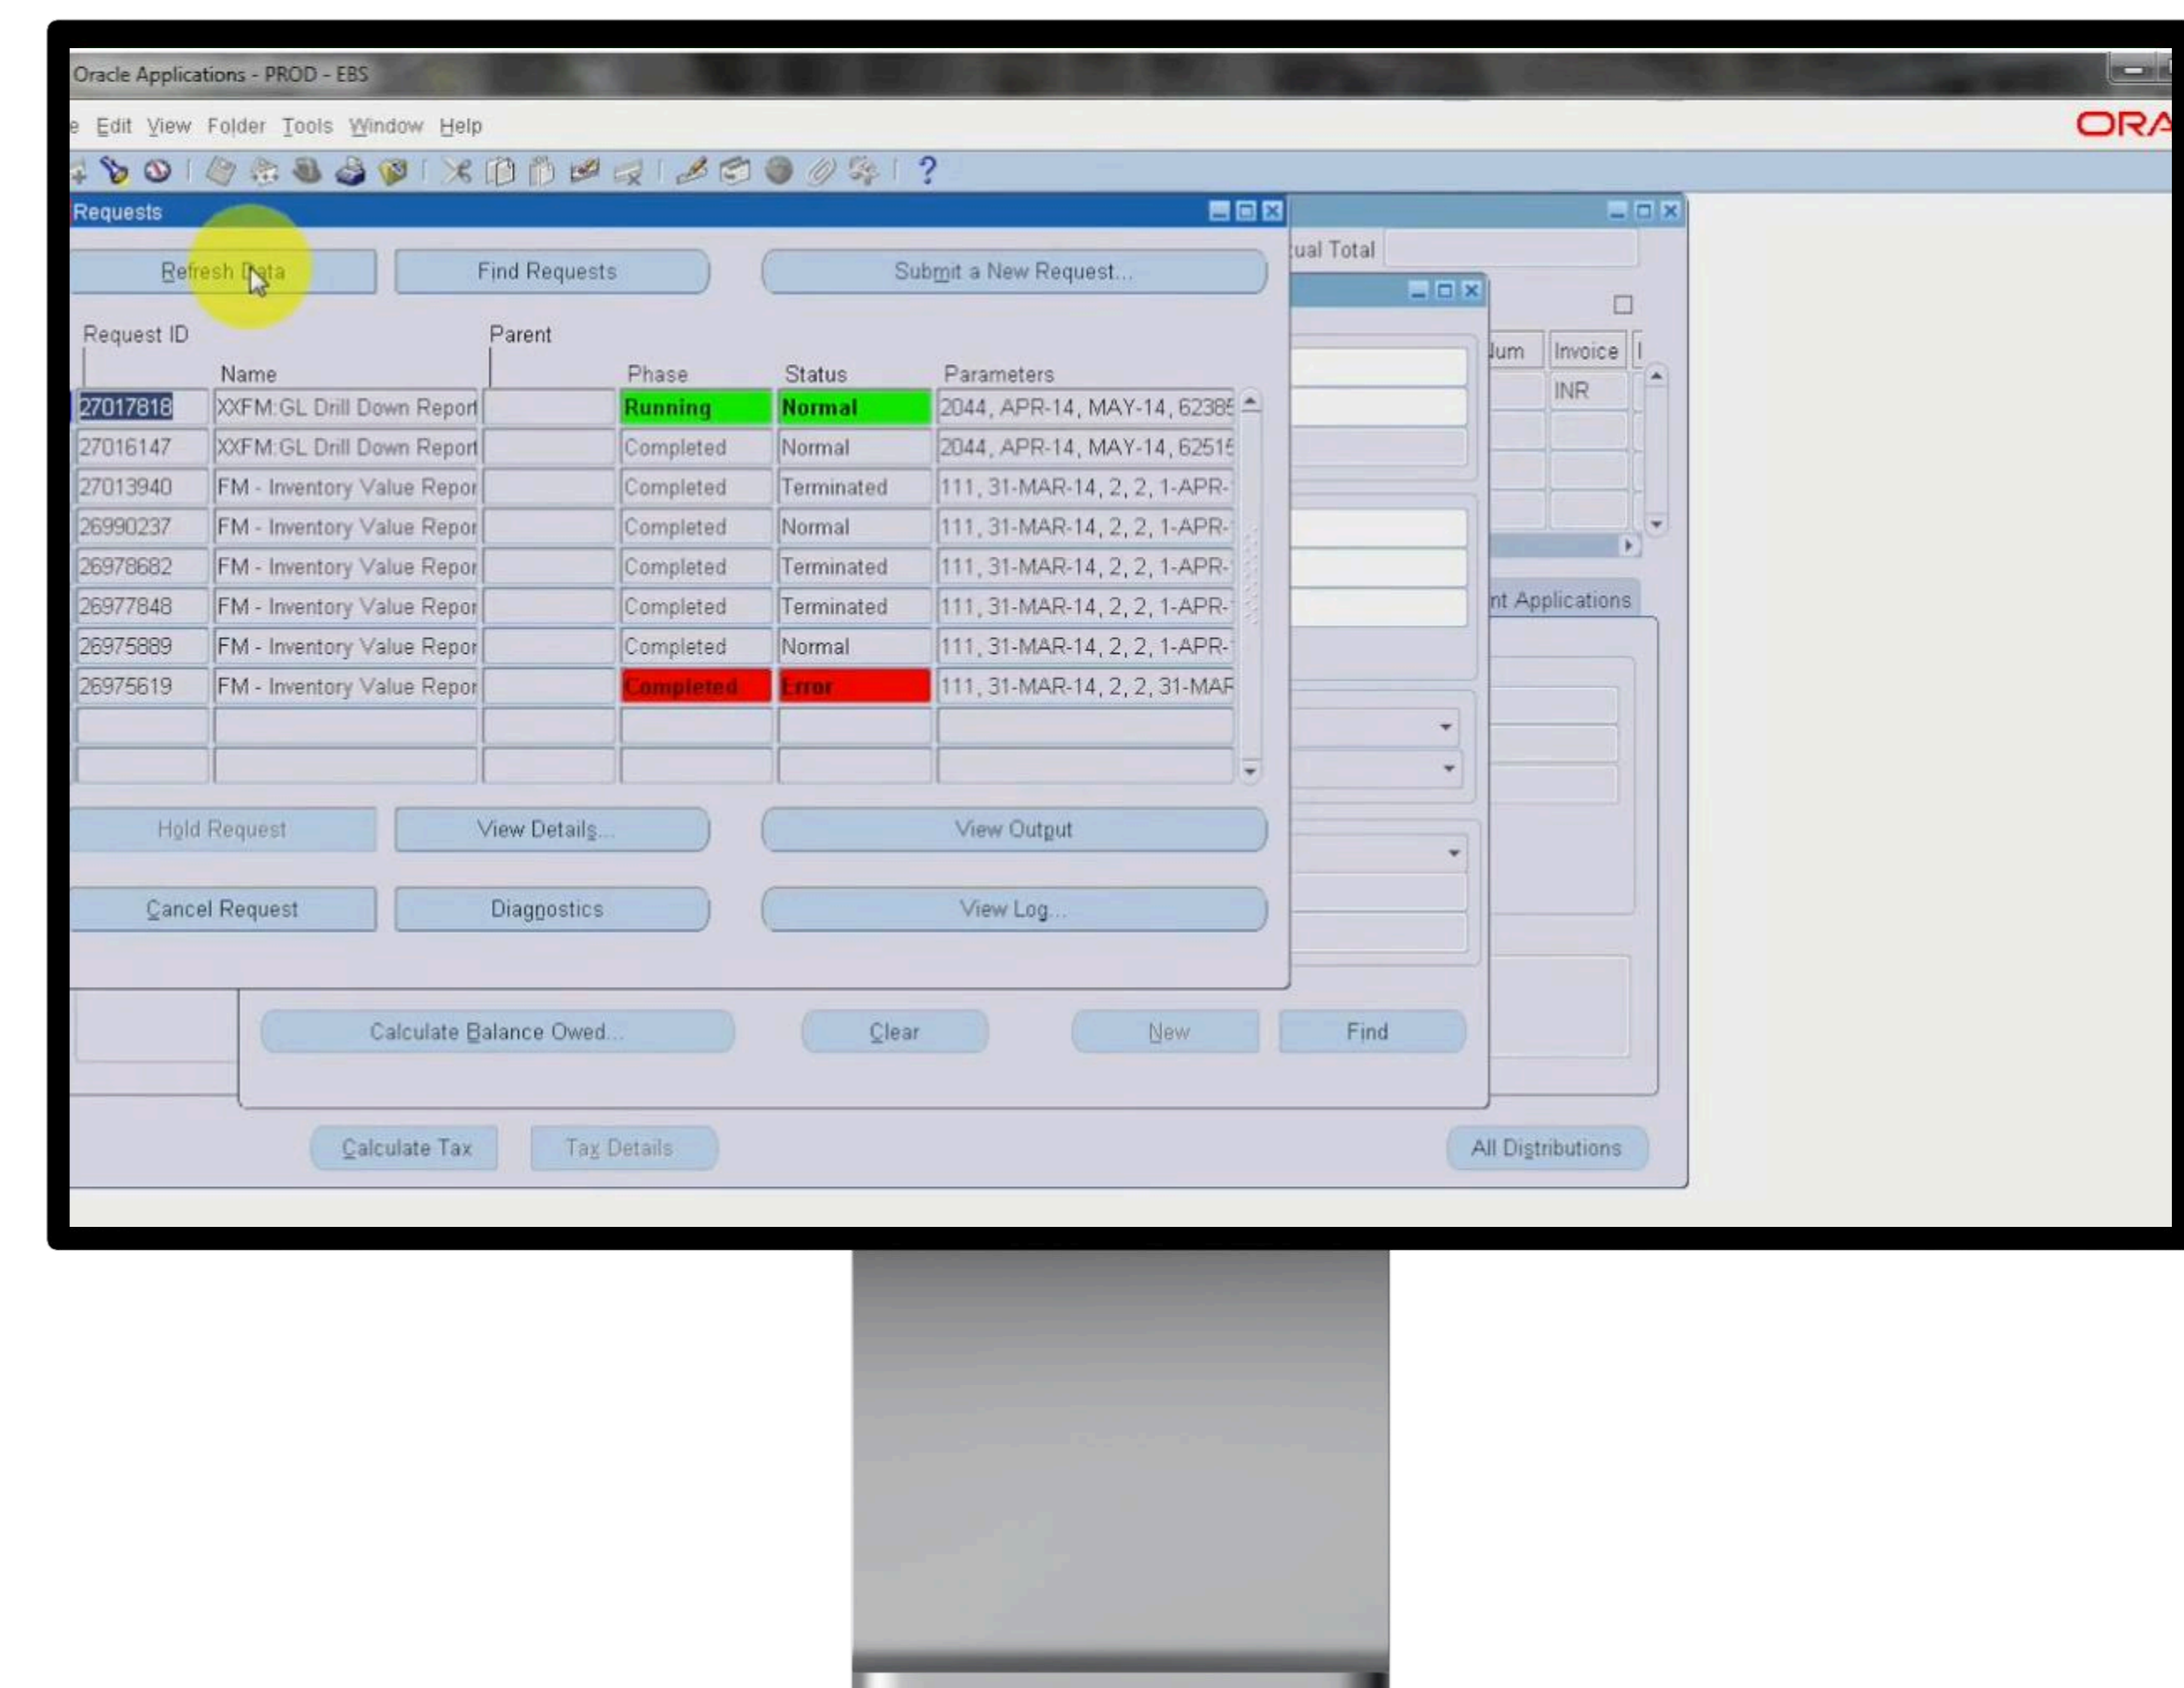

#### Automated Distribution

##### Report Distribution Manager Scheduled Report Delivery

Automate Scheduling And Delivery Of Oracle Reports By Email Or Shared Folder. Each Recipient Sees Only Their Relevant Data — The Right Report To The Right Person, Every Time, On Your Schedule.
